

NIGCOMSAT
AFRICAN ROOTED GLOBALLY POSITIONED

ABOUT NIGCOMSAT

INTRODUCTION

Nigerian Communications Satellite Limited (NIGCOMSAT) is a satellite communications company fully owned by Government of the Federal Republic of Nigeria. We are the first sub-Saharan African Country to launch, manage and operate a quad band communications satellite, which has been designed specifically for the region, to take care of Africa's Communication needs.

OUR VISION

To be the leading satellite communication solutions provider in Nigeria and Africa

OUR MISSION

To provide seamless connectivity and satellite communication solutions through innovation

OUR CORE VALUES

Leadership, Innovation, Integrity, Professionalism, Customer-Centric

Our satellite broadband services are a technology of choice for extending mobile telephony networks to remote or hard to reach areas or ad-hoc sites using our i-Direct and Newtec Hub platforms.

Our company focus is on delivering the highest quality of service and we are committed to good customer service thus our experienced technical team is always available to offer support ensuring fast resolution of problems and delivering business continuity.
